

OMEGA 82

# OMEGA 82

## Compact LED lighting system for uniform wall lighting

OMEGA 82 is a LED wallwasher with a width of 82mm. As a result of its straight-lined design, OMEGA 82 can be integrated into the room unobtrusively and special lighting trends are achieved through the uniform lighting of the wall. With this indirect lighting, OMEGA 82 achieves evenly diffused lighting and provides a pleasant light and friendly atmosphere in the room, with low power consumption.

### Technical details

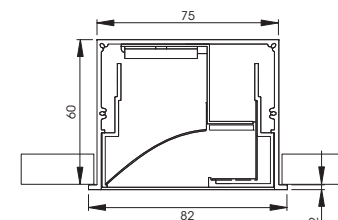

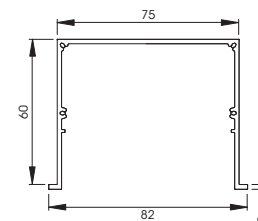

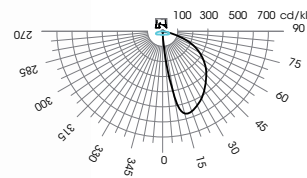

Article number: OM82 021-100A3-01 [LED element with L= 1,000mm]  
Supplied voltage: 25W/m  
Light output: 21 W/m  
LED: Array, Elemente auswechselbar  
Efficiency: 85%  
Light technology: Asymmetric, Wallwasher  
Material: Anodised silver  
Installation: In channel [15-OM82-4000-001]

### Benefits

- Even, energy-efficient wall lighting
- Intensity of lighting can be increased by increasing the number of LED spots
- LED element including power supply for installation in a lighting channel [modular system]
