

PUNTEO®-P250

PUNTEO®-P250

Powerful milieu luminaire for metal halide lamps

PUNTEO®-P250 milieu luminaires create flair! Thanks to two lamps integrated in the mixing chamber, light colour or light intensity can be adjusted according to personal requirements and adapted to the corresponding prevailing lighting atmosphere on-site [During the day: Light with cold daylight colour, in the evening: Light with warm light colour.]

Technical Data

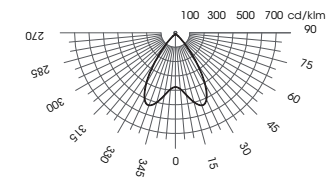

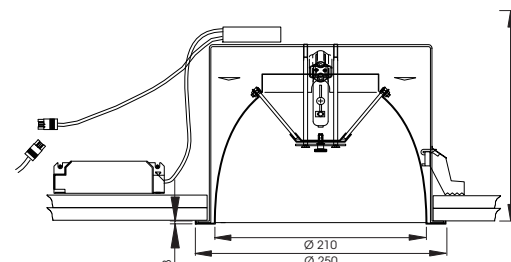

Article number: 15-22402-01-7070
Supplied voltage: 2x 70W
Light output: 6600lm
Lamp: 2x HCl-TC 70W
Efficiency: 54%
Beam light: Symmetric, wide angle beam
Material: Aluminium anodised, semi matte
Mounting height: 210 mm
Ceiling opening: Ø228 mm
Ballast unit is stored in the ceiling void

Benefits

- Adjustment of the light colour or the intensity to personal requirements
- High efficiency and high light output
- Switchable, spot lighting which is very economical
- The lamps are not visible directly thanks to combination using the mixing chamber principle.
